Sandy Hook Killer Adam Lanza: Pedophilia, Man-Boy Love: Public Libraries Home for Masturbation

Sharing is caring!

Adam Lanza showed up at Newtown, Connecticut's Sandy Hook elementary school and within minutes killed 20 children, six adult staffers and himself. He murdered his mother on his way to the school. Through photos of this strange person, you can see disturbing forces at work with one look at his eyes. New reports released show pedophilia-related materials and themes that make one think of The North American Man-Boy Love Association (NAMBLA) and [The Boy Lovers Network](#). Related, in my opinion, are our nation's public libraries, taxpayer funded, being a warm and fuzzy home for masturbation, sometimes leaving their "ejaculate" behind.

Lanza attended Western Connecticut State University – see his scary student I.D. photo above. He refused to identify his gender. In this article, [5 Fast Facts You Need to Know](#), Lanza

reportedly attended college at age 16 after his mother, Nancy Lanza, withdrew him from high school. He was a computer whiz-kid and he “maintained a 3.26 GPA,” excelling in economics and history classes as well as computers.

[Well, this will probably be the last you ever hear about Adam Lanza from the mainstream media.](#)

The state’s attorney report on the horrific murders at the Sandy Hook Elementary School by shooter Adam Lanza found no “conclusive motive” for his actions but did document unsettling facts about the 20-year-old killer, including computer files he kept on the rights of pedophiles, a movie about man/boy love, instant messages concerning “homosexual fantasies,” numerous mass murder documents, and a computer game entitled “School Shooting.” In “School Shooting,” an amateur computer game, “the player controls a character who enters a school and shoots at students,” reads an Investigation Report (DPS-302-E) that is among the 1,000-plus pages comprising the state’s attorney report on the shootings. Beyond Adam Lanza’s demons, there’s this: the intrusion on families of deviants in locations funded by taxpayers — places where our children hang-out:

In the 21st century, the rights of decent law-abiding citizens must always yield to the rights of freaks and weirdos.

That's the lesson in the Chicago suburb of Orland Park, Illinois, where the local public library considers it their duty to [provide perverts access to Internet pornography at taxpayer expense](#). There have been reports of [degenerates masturbating in the library](#) and using the library's computers to access child pornography.

You might think that Orland Park is committed to the First Amendment, but when it comes to the right of citizens to peaceably assemble and petition their government for a redress of grievances? Eh, not so much. [More disturbing links here](#).

PJ Media's Megan Fox continues to battle a local library that seems to think that filtering porn on their computers, and in the process blocking the fap material for public masturbators and the mentally deranged that enjoy watching porn around children, is an assault on the 1st amendment.

You know what else is a 1st amendment right? Taking pictures of people who access porn in the library and posting it on a website called PornSurfersAtThePublicLibrary.

Do leftists have a problem with that? Well, to wrap their heads around it they can think of it as akin to publishing the names and addresses of people who legally own guns.

The most recent board meeting at the Orland Park

Megan Fox, PJ Media

Public Library was an illustration of tyrannical government in action. Currently, Orland Park Public Library allows unfiltered internet access which means access to violent porn, bestiality, the exploitation of sex trafficked women, and child pornography. They have no plans to do anything about it despite the Mayor of Orland Park joining the growing chorus for filters on all computers....

I have spoken at five board meetings along with other members of the community. Each time the topic was the same. "Put filters on the computers." Each five minute speech was tailored to a different angle pointing out different reasons why filters are necessary and constitutional. I always followed their rules and policies to the letter. **But at the last meeting, even though I have followed all the rules they wrote, the board decided they had heard enough about the porn problem at their library.** They arbitrarily decided we are no longer able to speak about anything relating to "computers" or "sexual misconduct" in their library. Keep in mind, these are the "free speech" people.

What a joke these people are. They bluster that those of us who don't want porn in public libraries are trying to censor adults from hardcore porn or "information" in their words, **but they have no problem actually stopping citizens and taxpayers from speaking to them! ... This is your government in action.**
