

APPENDIX

Survey

1. What is your age?

2. What is your race?

White

Black or African American

Hispanic

American Indian or Alaska Native

Asian

Native Hawaiian or Other Pacific Islander

Other: _____

3. What is the highest level of education that you have completed?

Less than High School

High School or GED

Some college

Associate's Degree (2-year degree)

Bachelor's Degree (4-year degree)

Master's Degree

Doctoral Degree

Professional Degree (MD, JD, etc.)

4. What is your religious affiliation? If you do not have a religious affiliation, write "none."

5. Do you qualify to receive Federal Pell Grants?

Yes

No

6. What type of city are you from?

Rural

Urban

Suburban

7. What is your marital status?

Never married

Separated

Divorced

Member of an unmarried couple

Married

8. What type of health insurance do you have?
I don't have health insurance.
I have government assisted health insurance (Medicaid, Medicare, Badgercare)
I have private health insurance (Includes health insurance through UWM)

The following questions ask about your sexual activity. Your responses will remain confidential. Any identifying information will be removed as soon as your extra credit has been awarded to you. It is very important to our research that you respond to the following questions honestly.

9. How would you describe your sexual orientation?
Heterosexual or Straight
Gay or Lesbian
Bisexual

10. In your lifetime, how many men have you had vaginal intercourse with?
<Dropdown box with exact numbers to create skip pattern; if zero, skip to question13.>

11. The following questions ask how old you were the first time you had vaginal intercourse with each partner:

What age were you when you had vaginal intercourse with the 1st man?

What age were you when you had vaginal intercourse with the 2nd man?

<Asked for each man the woman had vaginal intercourse with.>

12. Some people use condoms during vaginal intercourse to prevent diseases or pregnancy. Others do not use condoms. The following questions ask how often you used condoms when you had vaginal intercourse with each man:

How often did you use condoms with the 1st man?

Never

Less than half the time

About half the time

Not always, but more than half the time

Always

How often did you use condoms with the 2nd man?

<Asked for each man the woman had vaginal intercourse with.>

13. In your lifetime, how many men have you performed oral sex on?
<Dropdown box with exact numbers to create skip pattern; if zero, skip to question 16.>

14. The following questions ask you how old you were the first time you performed oral sex on each man.

What age were you when you performed oral sex on the 1st man?

What age were you when you performed oral sex on the 2nd man?

<Asked for each man the woman performed oral sex on.>

15. Some people use condoms or dental dams during oral sex to prevent diseases. Others do not use condoms or dental dams. The following questions ask how often you used condoms or dental dams when you performed oral sex on each man:

How often did you use a condom or dental dam when you performed oral sex on the first man?

Never

Less than half the time

About half the time

Not always, but more than half the time

Always

How often did you use a condom or dental dam when you performed oral sex on the second man?

<Asked for each man the woman performed oral sex on.>

16. In your lifetime, how many men have performed oral sex on you?

<Dropdown box with exact numbers to create skip pattern; if zero, skip to question 19.>

17. The following questions ask how old you were the first time each man performed oral sex on you.

How old were you when the 1st man performed oral sex on you?

How old were you when the 2nd man performed oral sex on you?

<Asked for each man that performed oral sex on the woman.>

18. Some people use dental dams during oral sex to prevent diseases. Others do not use dental dams. The following questions ask how often you used dental dams when each man performed oral sex on you.

How often did you use a dental dam when the 1st man performed oral sex on you?

Never

Less than half the time

About half the time

Not always, but more than half the time
Always

How often did you use a dental dam when the 2nd man performed oral sex on you?

<Asked for each man that performed sex on the woman.>

19. In your lifetime, how many men have you had anal sex with?

<Dropdown box with exact number to create skip pattern; if zero, skip to question 22.>

20. The following questions ask how old you were the first time you had anal sex with each man.

How old were you when you had anal sex with the 1st man?

How old were you when you had anal sex with the 2nd man?

<Asked about each man the woman had anal sex with.>

21. Some people use condoms when they have anal sex to prevent diseases. Others do not use condoms. The following questions ask how often you used condoms when you had anal sex with each man:

How often did you use a condom while having anal sex with the 1st man?

Never

Less than half the time

About half the time

Not always, but more than half the time

Always

How often did you use a condom while having anal sex with the 2nd man?

<Asked about each man the woman had anal sex with.>

22. How many times have you been tested for a sexually transmitted disease or sexually transmitted infection?

<Dropdown box with exact numbers to create skip pattern; if zero, skip to question 24.>

23. How many sexually transmitted diseases or infections have you been diagnosed with?

<Dropdown box with choices; If not zero, have them specify which STDs>

24. How many times have you had a pelvic exam?

25. How many times have you had a pelvic exam in the last year?

26. How many times have you had a Pap smear?

27. How many times have you had a Pap smear in the last 3 years?

28. How likely are you to get a pelvic exam in the next year?

Very likely

Somewhat likely

Not sure

Somewhat unlikely

Very unlikely

29. How likely are you to get a Pap smear in the next 3 years?

Very likely

Somewhat likely

Not sure

Somewhat unlikely

Very unlikely

30. How likely are you to get tested for a sexually transmitted disease or sexually transmitted infection in the next year?

Very likely

Somewhat likely

Not sure

Somewhat unlikely

Very unlikely

The HPV vaccine is a shot that many young women receive to protect against HPV which is a common cause of cervical cancer. The vaccine is given in a series of 3 shots throughout a period of 6 months. There are two brands of the vaccine available: Gardasil and Cervarix.

31. How many doses of the HPV vaccine had you received?

0 <If zero, skip to question 36>

1

2

3

32. Which brand of the vaccine did you receive?

Gardasil

Cervarix

I don't know

33. How old were you when you received your most recent dose of the HPV vaccine?

34. Where did you receive the first dose of the vaccine?

- Pediatrician office
- Gynecologist office
- Planned Parenthood
- College campus health center
- State Health Department
- Other: _____

35. Why did you receive the vaccine? (check all that apply)

- My parents decided I should get it
- I wanted to get it
- A nurse/doctor/other health personnel recommended it to me
- Other: _____

36. Why haven't you received all three doses of the vaccine?

TEXTBOX

<Only for those who have received 1 or 2 doses.>

37. How likely do you think you are to get HPV in your lifetime?

- Very Likely
- Somewhat likely
- Not sure
- Somewhat unlikely
- Very unlikely

38. How likely do you think you are to get genital warts in your lifetime?

- Very likely
- Somewhat likely
- Not sure
- Somewhat unlikely
- Very unlikely

39. How likely do you think you are to get cervical cancer in your lifetime?

- Very likely
- Somewhat likely
- Not sure
- Somewhat unlikely
- Very unlikely

40. How likely do you think you are to get a sexually transmitted disease or infection other than HPV in your lifetime?
- Very likely
 - Somewhat likely
 - Not sure
 - Somewhat unlikely
 - Very unlikely
41. How important do you think it is for you to get a Pap smear every 3 years?
- Very Important
 - Important
 - Moderately Important
 - Of Little Importance
 - Not Important
42. How important do you think it is for you to get a pelvic exam every year?
- Very Important
 - Important
 - Moderately Important
 - Of Little Importance
 - Not Important
43. How important do you think it is for you to use condoms during vaginal intercourse?
- Very Important
 - Important
 - Moderately Important
 - Of Little Importance
 - Not Important
44. How important do you think it is for you to use condoms or dental dams during oral sex?
- Very Important
 - Important
 - Moderately Important
 - Of Little Importance
 - Not Important
45. How important do you think it is for you to use condoms during anal sex?
- Very Important
 - Important
 - Moderately Important
 - Of Little Importance
 - Not Important

46. How important do you think it is for you to get tested for a sexually transmitted disease or sexually transmitted infection?

- Very Important
- Important
- Moderately Important
- Of Little Importance
- Not Important

If received at least one dose:

47. Because you have received the HPV vaccine, have you changed how often you use condoms during vaginal intercourse?

- No
- Yes, I use condoms more often
- Yes, I use condoms less often

48. Because you have received the HPV vaccine, have you changed how often you use condoms or dental dams during oral sex?

- No
- Yes, I use condoms or dental dams more often
- Yes, I use condoms or dental dams less often

49. Because you have received the HPV vaccine, have you changed how often you use condoms during anal sex?

- No
- Yes, I use condoms more often
- Yes, I use condoms less often

50. Because you have received the HPV vaccine, have you changed how often you get tested for sexually transmitted diseases or infections?

- No
- Yes, I get tested more often
- Yes, I get tested less often

51. Because you have received the HPV vaccine, have you changed how often you get a Pap smear?

- No
- Yes, I get Pap smears more often
- Yes, I get Pap smears less often

52. Because you have received the HPV vaccine, have you changed how often you get pelvic exams?

- No
- Yes, I get pelvic exams more often
- Yes, I get pelvic exams less often

53. Because you have received the HPV vaccine, has your belief regarding how protected you are from sexually transmitted diseases or infections (other than HPV) changed?

No

Yes, I believe I am now more protected than before the vaccine

Yes, I believe I am now less protected than before the vaccine
