*COMPENDIO DO
I VOLUME DO
MAPA SOCIOLINGÜÍSTICO
DE GALICIA*

Esta *addenda* actualiza as táboas correspondentes ó conxunto de Galicia que figuraban no volume anterior, *Lingua Inicial e Competencia Lingüística en Galicia*. Naquela ocasión, a ponderación das diversas mostras sectoriais para forma-la mostra da totalidade de Galicia fixérase a partir dos datos do Censo de Poboación e Vivendas de 1981, únicos dispoñibles naquel momento. Ó termos agora os datos do Censo de 1991, cómpre a actualización mencionada que modifica lixeiramente as porcentaxes que alí se presentaban. Para facilita-lo seu uso, as táboas aparecen numeradas coma no libro anteriormente citado.
